Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Healing Place is a private not-for-profit agency that's mission is "to reach men and women suffering from drug and alcohol addictions, provide the tools for recovery, and restore productive lives", and opened the facility The Healing Place of Campbellsville in 2010, which is located at 105 Heistand Farm Road, Campbellsville, KY 42718 which is a 106-bed community confinement facility (halfway house)/Alcohol/drug rehabilitation center/community treatment center for adult men. This date the facility housed 89 inmates/residents (male only). The Healing Place of Campbellsville has a contract with the KY DOC (Kentucky Department of Corrections). The KY DOC (Kentucky Department of Corrections) mission to protect the citizens of the Commonwealth of Kentucky and to provide a safe, secure and humane environment for staff and offenders in carrying out the mandates of the legislative and judicial processes; and, to provide opportunities for offenders to acquire skills which facilitate non-criminal behavior. The Contract Management Branch of the KY DOC is responsible for overseeing community services centers (halfway houses) that house state probationers, inmates and parolees. Inmates/residents who are classified as community custody and are near their parole eligibility dates are placed in halfway houses. This integration program allows inmates/residents to become reacquainted with their families and the community and gives them a head start in seeking employment, enrolling in vocational schools and/or college programs, and having access to community substance abuse, medical, and mental health care/treatment. The KY DOC (Kentucky Department of Corrections) agency policy in compliance with Section 115.22 of Prison Rape Elimination Act (PREA) Standards date filed 12/10/2013 and effective on 2/3/2014. (This date the facility housed 55 state inmates/residents.) The Healing Place of Campbellsville has a KY DOC audit twice a year. The other residents of The Healing Place of Campbellsville are from a number of referral sources including court ordered and some are self-referred (volunteer). The average length of stay is approximately 6-9 months. The Healing Place of Campbellsville facility currently employs 16 full-time staff and has 4 contractors/ volunteers who may have contact with the residents. The Healing Place of Campbellsville utilizes a Recovery Kentucky Model (a long-term social model of recovery), integrates a peer to peer self-help recovery system with the Twelve Steps of Alcoholics Anonymous. All residents are subject to random urine drug screens throughout their stay. Residents transition through levels of care/different phases based on specific goals and objectives (from Part 1 called Safe Off the Streets (SOS), through Part 2 called Motivation Track I and Motivation Track II, and finally Part 3 called Phase where the resident moves to a room much like a dorm room with a roommate, residents get jobs (either with The Healing Place's peer mentor office where they can help other residents or in the community).

The Healing Place is a successful model of recovery. The Healing Place focus on recovery through the twelve steps, emphasis accountability, and work towards addressing behaviors including "personal boundary behaviors" that does include PREA education and orientation. The Healing Place was named a "Model That Works" by the U.S. Department of Health and Human Resources.

The PREA on-site audit was the second PREA audit for The Healing Place of Campbellsville and was conducted by DOJ Certified PREA Auditor, Tina Sallee. During the pre-audit phase, the auditor reviewed a variety of documents provided by the agency. These documents included but were not limited to agency and facility policies and procedures demonstrating compliance with the PREA Community Confinement Standards, staffing plan, floor plan, protocols, training records, and other documents related to demonstrating compliance with the PREA Community Confinement Standards. This auditor did not receive any correspondence or requests from staff or residents prior to the on-site audit (a notice was posted with contact information for the PREA Auditor/audit date six weeks prior to the on-site audit as required).

An entrance meeting was held with Shannon Grey, Program Director (who has been with The Healing Place of Campbellsville since it opened in 2010)/Facility PREA Compliance Manager. The on-site audit work plan was discussed, samples of residents and staff to be interviewed were selected, and specialized staff were identified. Also, additional pre-audit information was obtained. Following the entrance meeting a tour of the facility was led by Program Director. All areas of the facility were viewed including administration areas, inside and outside of building, kitchen and dining area, 40 multiple occupancy cell housing units and restrooms, and 2 open bay/dorm housing units and restrooms. PREA related informational posters were prominently posted and the PREA audit notice was also observed posted in the facility. Additionally, informational pamphlets regarding PREA and crisis services are given out during the intake/PREA education/orientation for each resident immediately upon arrival at the facility; and PREA information posters/contact information are posted for both resident and staff access. No SAFE or SANE staff are employed at this facility; however, these professionals are provided at Taylor Regional Hospital Emergency Room where forensic examinations would be conducted at no cost to the resident and/or to their family.

Interviews were conducted with the Program Director/Facility PREA Compliance Manager (also interviewed as a member of the Incident Review Team, a trained PREA Investigative Staff, the designated staff for monitoring volunteer/contractors PREA education/training, the designated staff member charged with monitoring retaliation and/or grievances); the Director of Program Services/Intake Coordinator/LPN (also interviewed as a member of the Incident Review Team, interviewed as a random sample of staff regarding PREA training); the Phase II Coordinator/Office Administrator (also interviewed as a member of the Incident Review Team, also interviewed as a random sample of staff regarding PREA training); the Safe Off the Streets (SOS) Supervisor/Coordinator/Lead Monitor (interviewed as a random sample of staff regarding PREA training, a staff that conducts intake process which includes orientation of program/education regarding PREA, a staff who performs screening for Risk Assessment for Victimization and/or Abusiveness, a staff trained as a First Responder, facility staff responsible for conducting and documenting unannounced rounds, and a random sample of staff regarding PREA training); 16 male residents.

During the past 12 months, there have been three (3) administrative investigations (one (1) of staff-on-resident and two (2) of resident-on-resident) conducted by KY DOC (Kentucky Department of Corrections). During the past 12 months, there have been zero (0) criminal investigations of sexual harassment and/or sexual abuse. Documentation and staff interviews confirmed that these three (3) (as all reports must be) were thoroughly investigated and the findings were three (3) "substantiated"; consequences were determined including but not limited to release/termination of placement of residents involved and staff no longer working. Documentation and staff interviews confirmed that all allegations/reports of sexual harassment and/or sexual abuse be referred immediately for investigation. The agency with the authority to conduct criminal investigations would be contingent on the supervision of the resident (state residents are referred to KY DOC (Kentucky Department of Corrections) and would include Kentucky State Police and/or local Campbellsville Police Department when necessary). Mental health services can be provided locally by Adanta Sexual Assault Resource Center (ASARC) if/when needed.

The residents interviewed, some reported that they had been located in another adult correctional facility (and knew of PREA) before coming to The Healing Place of Campbellsville and other residents had not been in another adult correctional facility. All residents were complimentary of their thoughts and feelings

regarding immediate intake/orientation to the program, the PREA education, and the safety and security of this facility.

Documentation, staff and resident interviews confirmed that all residents do receive information on PREA and their right to not be sexually abused/harassed, how to report sexual abuse/harassment, their right not to be punished for reporting such immediately upon arriving at the facility during intake/orientation. Documentation, staff and resident interviews confirmed that all residents are assessed to ascertain risk of being sexually victimized and/or abusive and the facility uses this information to keep residents safe. Residents who have experienced trauma, abuse, or victimization and/or request it are provided additional services as needed.

An exit conference was held with Shannon Grey, Program Director/Facility PREA Compliance Manager. Documents were timely and complete. Staff and resident interviews occurred efficiently. The entire facility was toured. Overall, the facility was well prepared for the PREA audit and performed well in all areas. After reviewing all pertinent information and after conducting resident and staff interviews, the auditor found that agency/facility leadership have clearly made PREA compliance a high priority and have devoted a significant amount of time and resources to PREA policy development, training of all staff and volunteers in the facility, and immediate education upon intake with all residents regarding PREA aspects,

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The facility is housed in one secured building and features 40 multiple occupancy cell housing units and restrooms (each restroom in each apartment is private with a toilet, shower with curtain, and sink), and 2 open bay/dorm housing units (restrooms had showers—all showers had curtains; and stalls with toilets—all stalls had doors; and sinks), community kitchen, pantry, dining hall, lounge, laundry rooms (the doors of the hallway for common areas are windowed for ease of monitoring), meeting rooms/classrooms, administrative offices, conference room, outside areas that were viewed.

The PREA audit notice and PREA posters containing PREA information are prominently posted for resident and staff access.

Documentation and staff interviews confirmed the practice that any expansion or modifications to existing facility in future take into consideration the effect of any modification, expansion, and/or any video monitoring

system or other monitoring technology upon the facility's ability to protect residents and staff from sexual harassment/sexual abuse.
